

A TEAM YOU CAN COUNT ON

When you have your company's operations dependent on your Baan ERP software, should you trust your customization and implementation projects to just another company or should you go with a company with solid functional and technical expertise to help you get the most out of your Baan software?

NO SUBSTITUTE FOR EXPERIENCE

The team at Magna Infotech has extensive hands-on industry, consulting and technical expertise in Baan. Our high quality and dedicated team members combine their business process knowledge, technical skills, creative thinking and excellent communications to make your business solutions work - quickly and effectively. They not only excel individually, but are also great team players.

TOTAL SOLUTIONS IN ALL MODULES

Our team members are experienced in all areas of Baan - Tools, Finance, Manufacturing, Sales, Distribution, Projects, Supply Chain, Exchange, EDI, DEM, Front Office. They are in pace with emerging technologies such as Baan E-Commerce add-ons and third party reporting software like Safari and Crystal Reports. They have worked on multi-site implementations and are also well-versed with the Baan rapid implementation methodology. The average experience of all team members is more than 24 months.

EXCELLENT TRACK RECORD

Magna Infotech's Baan team members have provided services to several large and medium sized corporations

"I would recommend Magna to any one who requires quality Baan resources at a reasonable price."
