MAGNA INFOTECH

YOUR IT PARTNER

Since 1995, Magna Infotech is a premier provider of IT services to clients worldwide. An associate company of the \$1 Billion Nagarjuna Group, Magna offers unique solutions to build, integrate and manage IT systems across a broad spectrum of industry. We leverage the financial strength and stability of the Nagarjuna Group as well as the technical expertise of our team members to enable our clients to get the best value for their IT budget.

We have helped over 100 of the Fortune 500 companies develop and re-engineer their business critical applications and have, in the process, developed a thorough understanding of the complex software lifecycle. This has been made possible through our network of offices in Europe, USA and India.

At Magna Infotech, we are constantly working to add value to our clients' investment in Information Technology. No wonder that we are an IT solutions company you can count on!

ETHAN ALLEN

Magna's efficient philosophy is somewhat different from most I have previewed. They maintained good project control with shared communications and avoided delay in response by staffing appropriately. Additionally, Magna carries various areas of expertise which they can pull from when needed.

Director, Information Technology

SENSORMATIC

We have had a good partnership with Magna Infotech and are happy with technical knowledge and professionalism demonstrated by Magna team members. We could not have completed the project without them.

Manager, Client Server Application Development

VERIZON

Magna Infotech has been providing IT services to my organization since 1995. Magna Infotech believes in partnering itself in the whole process of the project which gives them an edge over the rest. This has been proven by the effort, sincerity, dedication and hardwork of their consultants in mission critical projects.

Senior eBusiness Executive

TREND TECHNOLOGIES

Trend technologies wishes to express its gratitude for the efforts of Magna Infotech to supply us with qualified and motivated Best business consultants. The assistance of these consultants with our Gaussigara and San Jose implementations has been very valuable. Trend looks forward to continuing our business relationship.

Director, Information Systems

RESOLUTION

The professionalism and attitude of Magna workforce among our programers contributed greatly to entire culture of the department in which they worked. I would attribute our success largely to their participation in the project.

Chairman and CEO

INTERNATIONAL COMFORT PRODUCTS

Ashok, contracting through Magna Infotech, has worked with ICP over the past 2 years and participated in the implementation and support of our BPCS ERP system. Ashok has shown excellent project skills and requires very little supervision. All his projects were delivered on time and were of the highest quality.

Project Delivery Manager, Information Technology - I.S.

SIGNIFICANT SAVINGS

Magna Infotech seeks to maximise your return on investment in technology through high quality solutions delivered with savings of up to 50% over in-house development.

Our pricing is extremely competitive. We solve your problems quickly without compromise on quality or customer service and the results suit your budget as perfectly as your business.

With over 30,000 sq ft of our own development centres around the world, we can utilise skills and resources that may be in short supply elsewhere, saving your time and money.

TECHNICAL SERVICES
