

Magna Infotech

Magna Infotech is a premier provider of quality web solutions since 1995. A Microsoft Certified Solutions Provider, Magna's rapidly growing client base includes both Fortune 500 clients as well as medium sized businesses. These satisfied clients are serviced through our network of offices in USA, Europe and India.

Magna Infotech has all the resources required to provide Internet/Intranet solutions in house. This includes a state-of-the-art web designing studio, multiple secure web servers, backend database connectivity and secure credit card processing. In fact, Magna is a one stop shop for all Internet/Intranet solutions.

Magna Infotech is an associate company of the \$1 Billion Nagarjuna Group, a leading group in India involved with diverse activities such as IT, fertilizers, petroleum and power.
