PROFILE

Magna Infotech was established in 1995 at Danbury, USA. Magna is a Microsoft certified solution provider. Registered with the Software Technology Park of India. We have our own infrastructure for Web Services in USA and India. It is One-stop solution to the entire design and development process. In India, at present, branches are at Hyderabad, Indore and Chennai.

PROVIDING

- Software Solutions • Network Solutions
- Web Development

Magna's presence in USA helps us in upgrading our knowledge about the state-of-the-Art technology and also in implementing the same here.

OUR VISION

As the client list of ours is growing day-by-day, we at Magna, require professionals, or even fresher who have the latent potential, which we are looking for.

Keeping in view the growing requirements, Magna Infotech has now come up with its very own training center.

Excellence in quality has always been our trademark. We are on our way to prove it once again through our training institute. And, here is an open invitation to you from us, to be a part of it as a student.

..... **Show us the desire to succeed;**
..... **we will show you the way to success.**
